MEMORANDUM

TO: University Community

FROM: Robert E. Fry, Director of Institutional Research REF

DATE: December 7, 1979

SUBJECT: Fall 1979 University Fact Sheet

Enclosed is the Fall 1979 University Fact Sheet which provides basic data about the Student Body, Faculty and Staff and the Educational Facilities of the University of North Carolina at Wilmington. Due to the extremely heavy reporting requirements placed on this Office during the Fall, this report is annually supplied late in the semester. To make the data more useful to you, the Office is planning to provide next Fall a preliminary summary of enrollment data no later than two weeks after the end of the drop-add period.

I hope that this information is beneficial to your department and as always, if you have any questions please do not hesitate to contact this Office.

University of North Carolina

at Wilmington

Office of Institutional Research

MEMORANDUM

TO: University Community

FROM: Robert E. Fry, Director of Institutional Research REF

DATE: March 20, 1985

SUBJECT: Spring 1985 University Fact Sheet

Attached is the University Fact Sheet containing information about students, faculty and the facilities of the University as of the spring semester of 1985. During the past several months, the Office of Institutional Research has been developing a one page pamphlet containing statistical information for the fall semester of 1984. This publication will be available for distribution to prospective students and other non-University individuals desiring a statistical overview of UNCW.

The Office welcomes any comments or questions about the attached publication and requests for our summary pamphlet.

*Supplied to UNC-W by N.C. Higher Education Facilities Commission as of Fall 1984.

Technical notes:
Tables were generated from student and personnel files using SAS and SPSS statistical processors on the VAX computer. Table formats were created using SYMPHONY software on the Digital Rainbow microcomputer. The cover graphics, the population pyramid on page 2, and pie graph on page 4 were done using SPSS-Graphics which is now available on the VAX computer.

*Supplied to UNC-W by N.C. Higher Education Facilities Commission as of Fall 1984.

Technical notes:
Tables were generated from student and personnel files using SAS and SPSS statistical processors on the VAX computer. Table formats were created using SYMPHONY software on the Digital Rainbow microcomputer. The cover graphics, the population pyramid on page 2, and pie graph on page 4 were done using SPSS-Graphics which is now available on the VAX computer.

*Supplied to UNC-W by N.C. Higher Education Facilities Commission as of Fall 1985.

Technical notes:
Tables were generated from student and personnel files using SAS and SPSS statistical processors on the VAX computer. Table formats were created using SYMPHONY software on the Digital Rainbow microcomputer. The cover graphics, the bar graph on page 3 and pie graph on page 7 were done using SPSS-Graphics which is available on the VAX computer.

AUDIT STUDENTS*	48												
GRAND TOTAL	7,051												

*Race, sex and residence status data not available for audit students.

- Total enrollment increased by 450 students or about 7% since the fall of 1988.
- Credit hours taken by students increased by over 5,000 hours between 1988 and 1989.
- The number of New Freshmen increased to 1,509 from 1,260 last year.
- Black enrollment increased by six (6) students since last year and currently represent 6.4% of the total enrollment.
- The percentage of undergraduate students enrolled full-time has increased from about 75% in 1975 to almost 85% this fall.
- Out-of-state residents currently represent about 10% of the student body. This group made up 6% in 1980.
- Females currently represent 57% of the student body while in 1980, 53% of the student body were female.

Note: The date from which age is calculated has been changed this year from September 1, to October 1, to be consistent with the General Administration reporting.

- The average age for undergraduate students has declined from a high in 1975 of 25 to the current average of about 22.
- Females in both the full- and part-time categories tend to be older than their male counterparts.
- The percentage of undergraduate students over the age of 24 has declined from about 31% in 1975 to slightly less than 15% this fall.

*New Freshmen included in undergraduate totals.

- Almost 14% of the New Freshmen entering this fall are from outside North Carolina. This is an increase from approximately 12% last year.
- Between 1975 and 1989, the percentage of students enrolled from New Hanover County dropped from 52% to 26%.
- In 1975, 22 North Carolina counties were not represented whereas this fall only 5 counties are not represented.
- The top five counties sending students this fall are: New Hanover (1,846), Wake (513), Onslow (352), Cumberland (245), and Brunswick (215).
- In 1975, 23 states were not represented at UNCW whereas this fall all but 14 states are represented.
- The top five states sending students this fall are: New Jersey (111), Virginia (97), Maryland (74), New York (64), and Ohio (53).

*Excludes Administrators, Graduate Assistants and Faculty on Leave.

- In the fall of 1980, 35% of the faculty had been granted tenure. This percentage has increased to 50% this fall.
- The percentage of females on the faculty has increased from slighty over 30% in 1980 to about 33% this fall.
- Over 25% of the faculty were employed as lecturers in 1980 while 28% hold that rank this fall.
- Just over 60% of the faculty held the doctoral degree in 1980. This percentage has increased to about 65% this fall.

**This is the first year the Natatorium is reported as a separate facility. Previously, it was part of Trask Coliseum.

1983-84 GRADUATE SURVEY OVERVIEW

In the Spring and Summer of 1989, the University of North Carolina at Wilmington conducted a survey of the 1983-1984 graduates to determine their career and educational progress and their evaluations of UNCW experiences five to six years after graduation. The survey population consisted of 741 undergraduates who completed their academic work between Summer 1983 and Spring 1984. Current addresses were not available for 213. Of the 538 with addresses, nearly half (49%) responded.

The respondents were similar to the graduate population in gender and grade point average. While half of the white graduates responded to the survey, only 25% of the 20 black graduates returned surveys. Education majors had the highest response rate (60%), followed by Business (53%), Arts/Communications (49%), Humanities (48%), Social/Behavioral (47%), Science/Mathematics (46%), and Nursing (38%) majors.*

DEMOGRAPHIC AND SOCIAL CHARACTERISTICS

- Slightly over half (51.3%) of the respondents are male and 97.3% are white.
- Over half (57%) are currently married, 6% are separated or divorced, and 36% are single.
- Over two-thirds of graduates have no children, 20% have one child, and 13% have two or more.
- Over three-quarters of the respondents are employed in North Carolina. One-fifth are in the Wilmington area, 7% in Raleigh, and 5% in Jacksonville.

EMPLOYMENT CHARACTERISTICS

- Nearly all (99.6%) respondents have been employed at some time since graduation, and 92% are currently employed.
- One-third have had only one full-time position since graduation, 35% have had two, and 31% have had three or more.
- Full-time permanent employees have been employed in their current job for an average of just over three years (37 months). Science/Mathematics and Education majors have the longest average tenure (41months)in their current jobs while Humanities majors have the shortest (20 months).
- Type of work (56%), career opportunity (51%), and geographic location (42%), followed by salary (36%), are the primary factors that attracted graduates to their current job.
- Overall, 43% of graduates are very satisfied and 45% fairly satisfied with their current position. Nursing (56%), Humanities (50%), and Arts/Communications (47%) have the highest percentages of graduates who are "very satisfied."
- The median annual income is between $25,001 and $28,000 for full-time currently employed respondents. Median income ranges for major areas are as follows:

Arts/Communications	$19,000 (median between 2 ranges)
Business	$28,001 - $31,000
Education	$19,001 - $22,000
Humanities	$19,001 - $22,000
Nursing	$25,001 - $28,000
Science/Mathematics	$25,001 - $28,000
Social/Behavioral	$22,001 - $25,000

- An analysis of income by major area indicated that Business majors have significantly higher salary ranges than all other areas except Science/Mathematics. Education majors' incomes are significantly lower than Business and Science/Mathematics majors. Other differences were not significant.
- UNCW major and current or last position are "very related" for 42% of graduates. All Nursing respondents and 85% of Education respondents reported that their position is "very related" to their major area. Only 29% of Social/Behavioral and 24% each of Arts/Communications and Humanities majors indicated that their employment was "very related." Social/Behavioral majors reported the largest percentage (33.3%) of unrelated employment.

---

* Majors have been grouped as follows:
- Arts/Communications - Creative Arts and Speech Communication.
- Humanities - English, Philosophy & Religion, Modern Languages.
- Science/Mathematics - All Natural and Physical Sciences, Computer Sciences and Mathematics.
- Social/Behavioral Sciences - Geography, History, Physical Education, Political Science, Psychology, Parks & Recreation, Social Science, and Sociology.
- Business - All majors in the Cameron School of Business.
- Education - All majors in the School of Education.
- Nursing

- Six in ten respondents feel that their current or last employment is "very related" to their career plans. The highest degree of relatedness is found among Nursing (83%) and Education (78%) majors. Areas with the most unrelated employment and career plans are Social/Behavioral and Science/Mathematics (13% each).

COMPUTER USE

- One-third (35%) of respondents report "extensive" use of computers in their position while an additional 43% indicate occasional use. All respondents working in the computer/data processing and public accounting industries, and over 60% in banking, finance, and consulting services use computers extensively.

- Nearly six in ten respondents took computer courses while at UNCW. This includes nearly all Business majors, seven in ten Science/Mathematics majors, and a smaller proportion of Education (25%) and Nursing (8%) majors. Only one-third of those who took computer courses indicated that they used what they learned in their profession. The utilization rate was the highest for Science/Mathematics majors (46%) and Education majors (57%).

- The lack of computer skills for 103 respondents did not hinder the employment search for 97 of them. However, 26 of these respondents feel that computer skills would improve their advancement potential and 58 feel that such skills would assist them in their current position. Among those who did not take computer courses, 88% of Humanities, 65% of Social/Behavioral majors, and 57% of Education majors feel they would be assisted in their current jobs by such skills.

FURTHER EDUCATION

- Since their graduation from UNCW, 158 respondents have received additional training. Of those, 60% have received additional college credit and 50% have participated in employer training programs.

- Thirty graduates have received additional degrees since their 1983-1984 graduation from UNCW. These include ten Masters of Arts or Science degrees, seven Masters in the Education area, four law degrees, two medical degrees, two BSN (Bachelor of Nursing) degrees, and one DVM (veterinary medicine) degree. One each have received Masters in Divinity, Regional Planning, Recreation,and Business Administration.

- Of the 25 students currently pursuing Masters degrees, five are in Business or Accounting, and four are in Education. Five students are enrolled at UNCW and three at NC State.

- One-third of the respondents indicated that they would consider returning to UNCW for graduate work. Twenty-four were interested in the new Masters of Arts in Teaching program, 15 in English, 9 in the MBA, 7 in History, 6 in Geology, and 5 each in Chemistry and Mathematics plus several in other areas.

GRADUATES' EVALUATIONS OF THE UNCW EXPERIENCE

- Graduates were asked to evaluate how UNCW prepared them in comparison with other college graduates with whom they associate. Following are the 10 areas presented for evaluation and the percent who felt they were better or far superior to their colleagues and the percent who felt they were less or not at all prepared:

	Better Prepared	Less Prepared
Exposure to variety of subjects	26.3%	5.8%
Exposure to information in major area	40.4%	11.9%
Competence in major area	43.5%	10.8%
Communication skills	34.5%	13.0%
Problem-solving skills	33.8%	6.2%
Organizational skills	33.5%	8.1%
Leadership skills	31.2%	8.5%
Conflict resolution skills	26.2%	10.4%
Stress management skills	16.5%	25.8%
Relational qualities	35.8%	8.5%

- Over half (50.8%) are "very satisfied" with the education they received at UNCW, while 90% are "very or fairly satisfied" with the education they received.

- Nearly all (96.9%) indicate they would recommend UNCW to others seeking to further their education.

CONCLUSIONS

This survey has yielded some very positive evaluations of the UNCW experience from its previous graduates. Five years after graduation, nearly all have been employed and 92% are currently employed with an average of three years in the same job. Eighty-eight percent are satisfied with their employment. Two cautions are appropriate: (1) the survey instrument was geared to employed graduates and the lack of relevance for unemployed graduates might have resulted in a lower response rate among them, and (2) more successful and satisfied graduates are more likely to respond than less successful, less satisfied ones.

Glossary

Assignable Square Feet Assignable area refers to the area of a room measured to the nearest square foot that can be assigned to particular usage (omits hallways, etc.).

Class Level reached by student after successfully completing specified number of credit hours.

Classroom A room used by classes that do not require special-purpose equipment for student use.

Contact Hours A measurement of the total weekly hours of scheduled instruction.

Continuation A student enrolled at the same institution and in the same program level in the previous regular session.

Credit Hours Number of hours of academic credit assigned to each course.

EPA Employees exempt from the State Personnel Act. Includes all faculty.

FTE (Full-Time Equivalent) FTE enrollment is computed by assigning a percentage to each part-time student to reflect his course load and then adding the result to the total full-time enrollment.

Full-Time A student registered for 12 or more credit hours as an undergraduate or 9 or more credit hours as a graduate.

Graduate One who has attained at least one standard bachelor's degree or first-professional degree (in dentistry, law, medicine, theology, or veterinary medicine, etc.) and is or might be a candidate for a master's degree.

Headcount (HDCNT) Headcount enrollment makes no distinction between full-time and part-time students.

In-State Those whose legal residence, as determined at the institution for tuition purposes, is in North Carolina.

Laboratory A room used primarily by regularly scheduled classes that require special-purpose equipment for student participation, experimentation, observation, or practice in a field of study.

New Freshmen New students who have no college credits prior to the immediately previous summer sessions.

Out-of-State Those whose legal residence, as determined at the institution for tuition purposes, is in a state other than North Carolina or in a foreign country.

Part-Time A student registered for less than the required full-time load.

Re-Enrolling One who was readmitted to the same program level of instruction after an absence of one or more regular sessions. A former student transferring back to his original institution after attendance at another institution is classified as a returning student, providing he is in the same program level. Otherwise, he would be classified as a new transfer.

Returning (Same as Re-Enrolling)

SPA Employees subject to the State Personnel Act.

Special Graduate Not candidates for a degree, diploma, or certificate, or equivalent award, although taking graduate level course work with other students.

Stations Stations refer to the number of individuals a room is designed to accommodate.

Tenure A kind of protection against termination of one's faculty appointment except for gross malfeasance or financial exigency.

Transfer A student new at a given level for this term who has recognized college credits from other institution(s) and is admitted as a transfer student.

Unclassified Not candidates for a degree, diploma, or certificate, or equivalent award, although taking courses in regular classes with other students.

Undergraduate A student who has not yet obtained a bachelor's degree.
